## Phoenix

Darling you never know  
It started years ago  
When you're less than kind of done  
An adolescent singin' out real loud  
Some wild English tune:  
"Sha-la-la-la"  
Sha la la la la la la  
La la la la la la la  
We'll never talk it out this time  
You'll learn from all of us  
When your time's upHow it all began  
Seriously dumb  
When you're less than kind of certain  
An adolescent calling out real loud  
It's what singers do  
Sing sha la la la la la la  
La la la la la la la  
We'll never talk it out this time  
You'll learn from all of us  
When your time's upBet your life on a cruise ship  
Bartending crucial lies  
We're destined, wise and we socializeBourgeois, why would you care for more?  
They give you almost everything  
You believe almost anything  
Bourgeois, you're fire's a false alarm  
They give you almost everything  
You believed almost anythingDarling you never know  
Darling you never know  
When you're less than kind of done  
Adolescence's looking at you now  
Like foreign legions do  
Sing sha la la la la la la  
La la la la la la la  
We'll never talk it out this time  
You'll learn from all of us  
When your time's upYou lost your mind on a cruise ship  
Bartending crucial lies  
We're destined, wise and we socialize[Repeat x2]  
Bourgeois

Why would you care for more?  
They gave you almost everything  
You believed almost anything  
Bourgeois  
Your fire's a false alarm  
They gave you almost everything  
You believed almost anything
