Delivery Man

Cris Jacobs

Time to take a number
Pick out anything
Tell me what you want
I'll give you extra
Nowhere is too far to bring

If I had to take an airplane
I'd fly over to your neighborhood
If I was a little engine
I'd do all that I could
If you're ever gonna love me
Don't save it 'til the day I'm good and gone
To let me bring it on, to let me bring it on home
Call on your delivery man

Goodness and gold chains
All of those pieces that shine
Be it hell or high water hurricane
Take me to you right on time

If I had to take an airplane
I'd fly over to your neighborhood
If I was a little engine
I'd do all that I could
If you're ever gonna love me
Don't save it 'til the day I'm good and gone
To let me bring it on, to let me bring it on home
Call on your delivery man

If you're ever gonna love me
I do believe it's too long away
If you're ever gonna love me
Ain't no time to hesitate
If you're ever gonna love me
I got the good-good lovin' any time of day
If you're ever gonna love me
Well now don't ya babe, well now don't ya baby

If I had to take an airplane
I'd fly over to your neighborhood

Oh yes I would
If I was a little engine
Id do all that I could
If you're ever gonna love me
Don't save it 'til the day I'm good and gone
To get what you want, to get what you want
I wanna bring it on home for ya
Call on your delivery man
