

# Let's Go

## Bobby V

You see more of your T.V  
Then you ever did of me  
Your best friends channel 9  
We took your list, the ones alive  
There the last but your just fine  
but thats not the way life goes  
I just look into your eyes  
'cause i wanna see

I wanna go Baby just come with me  
Lets go lets go lets go, to the beach  
lets go lets go just you and me  
Lets go lets go...well be free  
well be free ya well be free  
Tanning oil and palm trees  
Lots of friends and beach parties  
Your not strong then even a Bitch  
Run away to miles of sand  
You and me and maybe my band  
Youll have fun im sure of it

I just look into your eyes  
'cause i wanna see  
I wanna go Baby just come with me  
Lets go lets go lets go, to the beach  
lets go lets go just you and me  
Lets go lets go...well be free  
well be free ya well be free  
I dont understand how  
Life can pass you by

And baby ill make you fly...Ill make you fly ill make you fly fly ill make you fly  
Lets go lets go lets go, to the beach  
lets go lets go just you and me  
Lets go lets go...well be free  
well be free  
Lets go lets go lets go, to the beach  
lets go lets go just you and me  
Lets go lets go...well be free  
well be free ya well be free o well be free ya well be...
