

White Dove

Dorje

I don't know much about the rain falling down my face
I don't know much about these tears that sting my eyes
I don't know much about the sun burning in the sky?

We stand and fight
For what we know is right
Protect, defend you till the end

We stand and fight
For what we know is right
Protect, defend you till the end

White dove in the snow

We'll carry on

I don't know much about the wind pulling at my hat
Is it gone to me? I guess I'll never know
I don't know much about the leaves falling from the trees?
The branch that broke and swept me to my knees

We stand and fight
For what we know is right
Protect, defend you till the end

We stand and fight
For what we know is right
Protect, defend you till the end

White dove in the snow

Wind carry me home

White dove in the snow

Wind carry me home

Solo

(White dove in the snow)

(?)

More face melting solo

(Yeaaaaaaaaa)

White dove in the snow
Like a (?) to reach your home
White dove in the snow
Wait until you reach your home

White dove in the snow
Like a (?) to reach your home
White dove in the snow
Wait until you reach your home

(White dove)
