

Let Go

Hollywood Undead

Waking up I don't feel alive
How fucked up are we inside
Breaking up in your empty eyes
Where's the truth in all your lies?
Watched you cry, you felt me die
These tears could fill up an empty tide
Looking for a last goodbye
I burned the world for you and I
If I could do it again
Would it be alright?
Or am I living a sin
Just being by your side
Wake up fuck love
Just tampering off your make up
Wake up, enough's enough
I sold my soul for tainted loveLet go, oh
Love isn't good enough
Let go, oh
Love isn't good enough
And the waves in the sea
They slip away just like me
So let go, oh
You weren't good enoughAll those empty eyes
They were twisted by design
What was hidden right behind?
Sometimes fear can leave you blind
Yeah God forsake the ones who make
The temped heart go out and break them
Vicious now, fucking vicious now
Some remember every story
Every inch between the lonely
Every voice that ever told me
Only one could ever hold me
Felt it in between, I remember when I dream
But you're vicious now, yeah you're vicious nowLet go, oh
Love isn't good enough
Let go, oh
Love isn't good enough
And the waves in the sea

They slip away just like me
So let go, oh
You weren't good enough What's love?
It's true
Dark hearts don't break, they bruise
Fuck love, fuck you
I'm dying just to hurt you too Let go, oh
Love isn't good enough
Let go, oh
Love isn't good enough
And the waves in the sea
They slip away just like me
So let go, oh
You weren't good enough The dark hearts
Only dark hearts
Only dark hearts (You're vicious now, yeah you're vicious now!)
Only dark hearts (You're vicious now, yeah you're vicious now!)
