

# Hangman

## Motion City Soundtrack

Fed up with, "Made you look"  
And Dirty Crooks without a clue  
They all wear the same face  
And it says, "Hangman, I'm on to you" Hangman, it's not your fault  
Commit to this memory  
The bright ideas  
Always get lost along the way Last call for medicine  
So count me in and turn me loose  
I never meant to hurt anything  
But I never tell the truth Hangman, it's not your fault  
Commit to this memory  
The bright ideas  
Always get lost along the way Commit to this memory  
(Commit to this memory)  
Commit to this memory  
(Commit to this memory)  
Commit to this memory  
(Commit to this memory)  
Commit to this memory I'm just a guy that never tried  
I'm just a stupid fuck with brilliant luck  
And sometimes a bright idea  
So shower me in a chorus of compliments  
And verse I don't deserve  
I might run but I'll never hide Hey, that's not right you can't complain  
"Everything's gonna be just fine"  
Said the pen to the dotted line  
If memory serves, then mark my words  
This game's called, "Catch me if you can"  
And with wine we salute all out bitterness Fed up with, "Made you look"  
And dirty crooks without a clue  
They all wear the same face  
And it says, "Hangman I'm on to you"
