

# What Happens If I Can't Check My Myspace When We G

## Attack Attack!

Come on  
Lay down your head  
And sleep with me tonight  
Lay in this bed Recall the black book, I'll forget you  
Complaining to myself to leave this  
Behind my smile, will be a lie  
For why you are gone Come on have some selfless-ness  
Don't give into arrogance  
Sleep with peace tonight  
(I'm waiting for the day) We're gonna win this fight  
(You've found your better man  
I've been waiting for the day)  
We're gonna win this fight Lay down your head  
And sleep with me tonight  
Lay in this bed  
Lay down your head And sleep with me tonight  
Lay in this bed  
Don't worry, I've let you go  
Long before you left me
