

No More

A1

You say you're gonna work it out
Then you say you're having doubts
Telling me you'll walk away
But then you go and stay
You're calling me day and night
Saying he don't treat you right
Then you always turn around
And give him one more try Baby you know it isn't fair
You expect me to be there
But we never get nowhere I got one foot out the door
I don't wanna hear 'bout him no more
I'll make a long story short
Time to make up your mind, girl
No more back and forth
I don't wanna hear 'bout him no more
I'm not what you want
I don't wanna hear no more Stop telling me you need more time
Tired of the same old line
Better make a move or you are gonna find
I ain't taken it
Cause you know it's wrong
Better let him know it's time to go
You're moving on
Baby you don't know how to close
I am to being gone Baby you know it isn't fair
You expect me to be there
But we never get nowhere I got one foot out the door
I don't wanna hear 'bout him no more
I'll make a long story short
Time to make up your mind, girl
No more back and forth
I don't wanna hear 'bout him no more I don't wanna hear no more
If you're sure that you really love me
I don't wanna hear no more
Out the door if you still don't know
I've been there for you
And you know it's true
You belong with me
What you gonna do I got one foot out the door

I don't wanna hear 'bout him no more
I'll make a long story short
Time to make up your mind, girl
No more back and forth
I don't wanna hear 'bout him no more
