

Triage

Trevor Morris

Itâ€™s now or never, whether we try
I canâ€™t remember why

And I canâ€™t believe that you were together
I donâ€™t believe you let her inside
I canâ€™t believe she wrote me the letter
Why did you bother to leave me alive

Alive and ticking inside

We said forever, until we die
But weâ€™re all offenders
We all lie

I canâ€™t believe that you were together
I donâ€™t believe you let her inside
I canâ€™t believe she wrote me the letter
Why did you bother to leave me alive

Alive and ticking inside

I donâ€™t believe that you were together
I canâ€™t believe you let her inside
I donâ€™t believe she wrote me the letter
Why did you bother to leave me alive...
