

What Was That

Dinosaur Jr.

I miss my life
This isn't good
Got so intent
I wish you would Said I'm down to meet you
What should I bring?
Someone said I should see you
I'll try anything I open the door
Knew I wanted more
Never seemed so thin like this before Walk right out
What was that?
Walk right out
Got a gold band I finally went
I brought my friend
Our minds met
I got a mend Said I'm down to meet you
I almost said
Someone said I should see you
So glad I did And I might steal in line
Tricks me all the time
Hug you down the sides Been aloof
What was that?
I was hurt
I came back It's been a while
She knows my face
I got so much
I pulled away Said I'm gonna meet you
And even then
Someone said I should see you
I'm all here Said I'm down to meet you
I'm back again
Someone said I should see you
So now's then
