

# Lose Myself

Joy

Stuck in pain and I can't change it  
Growing tired of living life this way My skin is cold, my mind is failing me  
I think my body's failing  
I just want all of this hurt to go away Dig a hole and throw me away  
Cause when I'm gone you won't even know my name Migraines start to make me lose myself  
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
