People

Alfie

People, figure it out
You're just a reflection
Of all you're allowed to be

People, moving around
A subtle illusion
To keep you from falling down

Don't just do what you're told
Go and try it at home

People, unable to rise
Take it or leave it
There's little to jeopardise

People, what does it matter?
You're sat doing nothing
Just getting as fat as you can

Don't just do what you're told
Go and try it at home

People, living through doubt
It's hardly an option
To hope it just all works out

Don't just do what you're told
Go and try it at home
