Stabilize

Craig Cardiff

protest singers and protest songs
muckrake earthquake sing alongs
all anyone really wants
is a song to call their ownmonkey catch monkey throws
hot knife soft kiss overdose
you say beauty fades and i say
beauty grows all aroundits ok, its all right everything is starting to stabilize, stabilize
we deserve more than this i believe
all the things i've learned not to miss come back in time, back in timemean words you didn't mean
start scratch film movie screen
cherry bomb the bad parts
cause the bad parts are long gonechange makes and breaks apart
moves ahead and back apart
wake up one day to find
you've become everything you've hatedits ok, its all right everything is starting to stabilize, stabilize
we deserve more than this i believe
all the things i've learned not to miss come back in time, back in time
