

# Widen Your Eyelids

## Wilderness Crew

I wanna go on a trip through the islands  
Take a walk from the hills to the highlands  
See some things that will leave me silent  
The type of "my lids?" that widens your eyelids

I'm talkin about a sunset, a sunrise  
I'm talkin about a full moon, right before my eyes  
I'm talkin moutains, down to oceans  
Whats the commotion  
The earth stay emotion  
A bold impulsion, of things to see  
Stimulate your senses, it makes sense to me

Takin a walk up on the beach  
Just to find relief  
Takin a dip up in the creek  
When you're feeling the heat

C'mon! OOoooOooOoo  
I think it's about time we widen our eyelids  
I think it's about time x3  
That we x3

C'mon! OOoooOooOoo  
I think it's about time we widen our eyelids  
I think it's about time x3  
That we x3

Ask yourself  
Have you ever taken for granted  
The things that mother nature happened to plant upon the planet  
Like bamboo, plants that are cool to view  
Or flower with pollen, that make you go AHH-CHOO

Booh Ya! We rockin for the new year  
Who's here? Wilderness Crew's here  
These fools got more rhymes than trees in B.C.  
Or species of insects, a number which is not known completely

Like not known completely is the sound of my buddy

Sweep down with the speakers with the WC  
As I drop to my knees  
Overwhelmed with this world, so I widen my eyelids like Eli-D

I'm gonna write some shit, that you might wanna sing along with  
Ain't nothing wrong with this so now

If you're rollin in your car, just feel me  
If you're chillin on the beach, just feel me  
If you're trying to make a rock, just feel me  
If you buff it on that sack, just feel me

No matter where you are, who you be  
open up your eyes, come sing with me

it goes OOoooOooOoo  
I think it's about time we widen our eyelids  
I think it's about time x3  
That we x3

C'mon! OOoooOooOoo  
I think it's about time we widen our eyelids  
I think it's about time x3  
That we x3

I wanna run through them hills and them highlands  
I wanna do that shit (uh huh)  
I wanna meet 10 million fans  
I wanna feel their love

I kick my feet back on the sand  
and catch a cool ass sunset

From Alaska to japan  
I know you gonn feel me man

I'm down in Indonesia  
I'm lovin it man  
'Cuz a couple o' bucks  
Is a couple o' grand

Sun yellow but the sand white  
Maybe I can play mellow or go all night

It's Alright, I'm a smooth boy  
My eyes be at ocean blue, boy

I represent the Wilderness crew, boy

I smoke a little hydro too  
But maybe not as much as you

Yo im on the sundeck  
Looking into my guestroom  
Feeling good cus my homie's  
Gonna touch down soon

See for six years  
I fought the same fear  
Scared my career  
WOuld stop and end here

And as im running back  
down memory lane  
from the runway i can  
hear the captain sayin

Flight 604 with permission to land  
we back better than ever  
straight killin it man

OOoooOooOoo  
I think it's about time we widen our eyelids  
I think it's about time x3  
That we x3

I think it's about time we chillout  
on all the cynical shit  
to be negative is way to easy

I know he looks dumb  
and she cant sing  
but even with the tabloids  
and even on the TV

Im a curious G  
singing all my friends songs  
on the last day of 2005

i take a piece of my mind  
and mix it in with my rhymes  
fuck wasting my time

now im back in the line

Curios E!

Would love to have your number, girl  
and we can see you moving on my dime  
but i cant fall in love with you this time  
i think you "beneficial?" friends might be just fine

I wanna go on a trip through the islands  
Take a walk from the hills to the highlands  
See some things that will leave me silent  
The type of "my lids?" that widens your eyelids
