

# What Gives?

## Radio Birdman

My heart rips open 'cause you're my all  
Staring at my blank white wall  
The old clock is getting heavy-handed  
Waiting for a plane that never landed  
What gives  
What you gonna do  
Feel my hand across your lips  
Got a P38 with a loaded clip  
I'll do anything that I could  
I'd go running out in the frozen woods  
For you  
So What gives, what gives, what gives  
What you gonna do
