

# this is what it feels like (kasqa bootleg)

## Banks

I hang on everything that you say  
You know I can see all the things that imply  
You secretly are in love  
And finally when I let myself fall hard for you, I  
see you trying to pretend, like I'm making it up  
This is what it feels like  
This is what it feels like Bring it down, bring it on  
Bring it now, bring it on  
This is what it feels like now  
It's getting old  
Bring it down, bring it on Remember the first love that we made  
You said that you couldn't sleep 'cause of me  
told me, I caught you off guard  
And then when you saw I felt the same, you pulled away  
Started acting like being with me was too hard  
This is what it feels like  
This is what it feels like  
This is what it feels like Bring it down, bring it on  
Bring it now, bring it on  
This is what it feels like now  
It's getting old  
Bring it down, bring it on Bring it down, bring it on  
Bring it now, bring it on  
This is what it feels like now  
It's getting old  
Bring it down, bring it on Bring it down, bring it on  
Bring it down, bring it on  
This is what it feels like now  
It's getting old  
Bring it down, bring it on
