

The Kid In You

Aaron Carter

Turn it up Pump it up

Turn it up

Just a little bit

Turn it up

Pump it up

Turn it up

Just a little bit

V-1

All the kids gonna bounce to this

All the kids gonna jump to this

All the kids gonna snap to this

Yeah, rock it rhyme

Little Aaron

How many people understand me that this is why

Ya growin' up to go to school, and that's a fact

Getting a job from the school, loan n pay 'em back

Then you get a car to make it to the job and back

Can you tell me why things gotta be this way

I'd rather be at the pool catchin' sunrays

Guys in the deep end

Girls in the shallow

Kids in the middle shout "MARCO POLO!"

When a get a little older Imma change things

Makin' life go easy like ice cream

Become president and play on the dream team

Bring home the gold medal for the ladies

But I guess right now Imma sit back

While I watch Scooby-Doo eat a Scooby snack

Grab a pen and some paper from my knapsack

And do a little homework for my math class

So have fun - that's my point of view

I always kick it just the way I want to

When I roll with the changes

I keep it real with a smile on my face, yeah

To yourself make a promise

Live everyday like you're gonna get your first kiss

And if you do, you'll never lose

The kid in you, the kid in you

Ha ha, ha ha

Wooah

I be the one that be dropping the hints

Lacing the beats

Into to the streets

Bringing the heat

Copping the chicks

Ill be your mix

Never forget what, what, what being a kid is

Even though I got a lot of dough

I keep it real

I still play my Sega Dreamcast

When I chill

Nickelodeon on when I'm eatin' meals

And I bought the big screen with the Zomba Deal

Listen up, to you kids all across the land

I still rock my Timberlands every time I can

Never miss an episode of the Batman

Still watching re-runs of the X-Men

And I still show love to my parents

Doing chores when I'm home running errands

Come to the crib, eat a ham sandwich

And when I'm around ya, you know what

I'm wearing, Timberlands

So have fun - that's my point of view

I always kick it just the way I want to

When I roll with the changes

I keep it real with a smile on my face, yeah

To yourself make a promise

Live everyday like you're gonna get your first kiss

And if you do, you'll never lose

The kid in you, the kid in you

Ha ha, ha ha

Wooah

Yo, everyone wanna be stuck in their old ways

Never wanna change when the get a certain age

Not me AC, gonna be this way

Stay this way, always say yo, yo

So have fun - that's my point of view

I always kick it just the way I want to

When I roll with the changes

I keep it real with a smile on my face, yeah

To yourself make a promise

Live everyday like you're gonna get your first kiss

And if you do, you'll never lose

The kid in you

So have fun - that's my point of view
I always kick it just the way I want to
When I roll with the changes
I keep it real with a smile on my face, yeah
To yourself make a promise
Live everyday like you're gonna get your first kiss
And if you do, you'll never lose
The kid in you, the kid in you
The kid in you
