Friendly Advice

Luna

Cover my face with roses
Cover me head to toe
I had to be drunk
Just to look at your face
That was all right by meHow long will this go?
How long will this go?
How long will this go on?Cover my face with roses
Cover me head to toe
You wanted to give me
Some friendly advice
That was alright by meHow long will this go?
How long will this go?
How long will this go on?Cover my face with roses
Cover me head to toe
They're throwin' a party
And you're not invited
That was alright by meHow long will this go?
How long will this go?
How long will this go on?
