

Shadowman

[Axxis](#)

Magic night, I can hear the voice of the shadowman Every night
I hear the steps in my mind
I'm freezing and feel the fear
This nightmare won't disappear I try to touch your face
Hiding away in the haze
You're turning your head, I cry, I die
This eyes red like fire are mine I'm gonna break the glass
I'm in a mirrorland
Everywhere I go, I stay
There is no place to hide away Magic night, I can hear the voice of the shadowman
Dream my dream, there is no way out
Magic eyes, take a look in the face of the shadowman
It's like a hellride through your mind Oh, wings of night
A black door to the other side
Here is the gate to the depths of my soul
When my spirit is out of control Oh, I feel it in a daze
I watch that demon face
I know it's myself I see
The shadowman, it's me I'm on the other side
The dark world of dreams
I'm bad, not innocent
My other self in the mirrorland Magic night, I can hear the voice of the shadowman
Dream my dream, there is no way out
Magic eyes, take a look in the face of the shadowman
It's like a hellride through your mind Magic night, I can hear the voice of the shadowman
Dream my dream, there is no way out
Magic eyes, take a look in the face of the shadowman
It's like a hellride through your mind, your mind I'm the shadowman, oh yeah, oh oh Magic night, I can hear the
voice of the shadowman
