## Shadowman

## **Axxis**

Magic night, I can hear the voice of the shadowmanEvery night

I hear the steps in my mind

I'm freezing and feel the fear

This nightmare won't disappear try to touch your face

Hiding away in the haze

You're turning your head, I cry, I die

This eyes red like fire are mineI'm gonna break the glass

I'm in a mirrorland

Everywhere I go, I stay

There is no place to hide awayMagic night, I can hear the voice of the shadowman

Dream my dream, there is no way out

Magic eyes, take a look in the face of the shadowman

It's like a hellride through your mindOh, wings of night

A black door to the other side

Here is the gate to the depths of my soul

When my spirit is out of controlOh, I feel it in a daze

I watch that demon face

I know it's myself I see

The shadowman, it's meI'm on the other side

The dark world of dreams

I'm bad, not innocent

My other self in the mirrorlandMagic night, I can hear the voice of the shadowman

Dream my dream, there is no way out

Magic eyes, take a look in the face of the shadowman

It's like a hellride through your mindMagic night, I can hear the voice of the shadowman

Dream my dream, there is no way out

Magic eyes, take a look in the face of the shadowman

It's like a hellride through your mind, your mindI'm the shadowman, oh yeah, oh ohMagic night, I can hear the voice of the shadowman
