

# Outro

## N-dubz

When a motherfucker tells me that his life's bad  
I tell him compared to what you been Baghdad  
Gaza, Basra, me and you are cool  
You got a car, I got a plasma  
Kids today got Nike Airs by the pile  
While somewhere else in the world  
For water, a likkle man's gotta walk barefoot  
In the blazing heat for more than nine miles

Life could be so much harder  
You got to love and live your life  
In every single hood or wherever you may be  
Love and live your  
You see us, we're more than grateful  
There's madness going on everywhere in the world right now  
So we just wanna thank all our fans for putting us where we are today  
Love, live your life, no, no
