

# Before Me and You

[Stephanie Williams](#)

Every kiss before this  
Was nothing but a waste of breath  
And every I love you was just a whoop-de-doo  
Never knew what I missed before this Da, doo, doo, doo Yeah and every love song before you came along  
Was always about someone else  
Oh and every star was just a wish too far  
Always a realist, yeah, before this And the way things go, you never know  
Where love will lead you to  
And everything we've ever dreamed  
Lies before me and you People say, it's not everyday  
That you find the perfect fit  
But when I fell for you, I found the other shoe  
Cupid was a myth before this And the way things go, you never know  
Where love will lead you to  
And everything we've ever dreamed  
Lies before me and you Yeah  
Da, doo, doo, doo, doo, doo  
Da, doo, doo, doo, doo, doo  
Da, doo, doo, doo, doo, yeah And the way things go, you never know  
Where love will lead you to  
And everything we've ever dreamed  
Lies before me and you And the way things go, you never know  
Where love will lead you to  
And everything we've ever dreamed  
Lies before me and you Yeah, before me  
Me and you
