

We're All Gonna Die (Feat. Cee - Lo)

Everlast

We're all gonna die
When I was a very young boy, mamma told me we're all gonna die
Mamma said son love can't be trusted, it's just another weakness
We're all gonna die Baby don't cry, praise the most high, tell you no lie
We're all gonna die
Baby don't cry, praise the most high, tell you no lie
We're all gonna die Now I'm grown, seen a lot livin', made a few friends
Gonna get high, hoping I don't take more than I'm given
Judgement day comin', we all gonna die
If my wings should fail me lord, meet me with another pair Baby don't cry, praise the most high, tell you no lie
We're all gonna die
Baby don't cry, praise the most high, tell you no lie
We're all gonna die
Baby getting born, old man die'n
Young lady laughn', old woman cryin'
Leaving like a lamb, comin' back like a lion
Babylon to Zion, we're all gonna die Praise the most high, we're all gonna die When I was a very young boy
Mama told me, we're all gonna die
Mama said, son, love can't be trusted
It's just another weakness, we're all gonna die
Praise the most high, we're all gonna die
If my wings should fail me lord, meet me with another pair Baby don't cry, praise the most high, tell you no lie
We're all gonna die
Baby don't cry, praise the most high, We're all gonna die
We're all gonna die
Baby don't cry, praise the most high, tell you no lie
We're all gonna die
Baby don't cry, praise the most high, We're all gonna die
We're all gonna die
