Tyranny

Firewind

We were sent to this world
Now we see all the action
The man in hate's lair, commanding us
His statement to share

Nation free!
We're fighting for
Democracy
Salvation, all we deserve
We don't need tyranny
Let's walk through our land of eden

We were tortured and enslaved
For their cruel
Satisfaction
A bird flyin' in the air
Killing us,
Our children not spare

Nation free!
We're fighting for democracy
Salvation / all we deserve
We don't need tyranny
Let's walk through our land of eden
