So Lovely

Lisa Marie Presley

You know I did somethin' right
Somethin' that keeps me alive
Know you sweet little babies
When you came you let me know I, that I was finally happy
Ooh, you knew me before now, didn't you?
My God, you're so lovely
Did you come here to help me?
And I know you can't sleep well
Unless I'm right there next to you
Oh you, you take care of Mommy too
You're so quick to defend me, aren't you?
Oh God you're so lovely, yes you are
You came here to save me, didn't you?
You came here to teach me
Ooh and I know I'm gonna try to teach you too
Know you're everything to me

Know you have to learn and try
Please don't fear to lose me
You know I have those same fears too
My God you're so lovely, yeah you are
You came here to save me, didn't you?
You came here to teach me
Ooh and I'm, I'm gonna try to teach you too
Little man and a lady, ohh
You are so handsome and pretty
Sometimes don't listen to your Mama, no
And don't do as I do, yeah
God you're so lovely, ooh ohh
You came here to save me, didn't you?
You came here to teach me
Ooh and I'm, I'm gonna try to teach you too
