

Liberate

Slipknot

Liberate, my madness
(One of me, all of you)
Liberate my madness
I just want to
Liberate, my madness
(One of me, all of you)
Liberate my madness Section off myself, put a wall up, what the hell have I done?
Keep the dog at bay, survive by saving me
Values and the game, not a fuck-up, not a part of your lie
I am one, I am all, I'm above and beyond Back off of the shit
Stand off or I'll spit
So soft, you forget
(Your garbage in is garbage out) You don't give a shit
I won't play the fit
Get off, get on this
(Your garbage in is garbage out) Liberate my madness Liberate, my madness
(One of me, all of you)
Liberate my madness
I just want to
Liberate, my madness
(One of me, all of you)
Liberate my madness I am not ashamed, what is vital, isn't always humane
You can break in vain but you can't break away
Even in my face, lotta bullshit, not a lotta the truth
I can't see from here but I can smell your fear Back off of the shit
Stand off or I'll spit
So soft, you forget
(Your garbage in is garbage out) You don't give a shit
I won't play the fit
Get off, get on this
(Your garbage in is garbage out) Saved, you're such a slave, I don't expect a name
You don't care, I wasn't witness
I can't be a part of a system such as this
Hard eyes, glow right, in my darkness again With the sickness, renegade blisters, sisters
Salivate, litigate, liberate, madness, sadness
Fuck this, how long have I had this?
I don't need this outta my business
Insert, engage, betrayed, my God Fraud
Fraud Liberate, my madness

Liberate my madness
I just want to
Liberate, my madness
Liberate my madness
