

# Believe Yourself

## One Way System

Original sinners, blaspheme beginners,  
In a mind's eye who lies within us  
Body and soul open to receive,  
There's two sides to every belief  
Me, myself and all my brotherhood

Be yourself not misunderstood Believe yourself, don't give a fuck what they believe

Believe yourself, open mind so much to see

Believe yourself, number one ain't done much wrong

Believe yourself, the only way to be Him or hymn, do they listen in?

Should we stand, celebrate and sing?

People like me, are we so wrong,

Self-belief, a feeling so strong

Me, myself and all my brotherhood

Be yourself not misunderstood Believe yourself, don't give a fuck what they believe

Believe yourself, open mind so much to see

Believe yourself, number one ain't done much wrong

Believe yourself, the only way to be Believe yourself, don't give a fuck what they believe

Believe yourself, open mind so much to see

Believe yourself, number one ain't done much wrong

Believe yourself, the only way to be Believe yourself, don't give a fuck what they believe

Believe yourself, open mind so much to see

Believe yourself, number one ain't done much wrong

Believe yourself, the only way to be
