Don't Fight It

Shannon Noll

sitting here in the darkness
and the seconds tick away
searchin' in the silence
for something else to say
its ok
even though your holding back on me
what is meant to be
is what will be
its okyeah i know its a matter of time
before im gonna make you mine
so let it go
baby dont fight it
we know
there aint nothin' like it
cant stop
when it gets started
all along
ain't it what we both wanted?
just let it go
we cant deny it
your mine so baby
dont fight ityou know you can close your eyes
but you still see that im right
you know
if you close your mind
you still hear your heart inside
its ok
i know if you try to walk away
something will be tellin' you to stay
its okCHORUSsomething bigger girl
has brought us here tonight
and we don't have to understand it
to know that it's right, oh
you know it's right, ohCHORUS
