Obvious

Hey Monday

Let's make a mess
Steal a kiss in the moment
You and me
Everything that could be
Touch, don't go
Stay as long as you like
Let's get reckless
Dance with our hands to the beat
Don't let this slip
Through our fingers, it feels insane
Don't you put up a fight
Let's rough it up
Till they shut it down
It's ah, ah, obvious
Right here's where the party starts
With you and me all alone
No one has to know
It's ah, ah, obvious to me
How it's gonna be
Ah, ah, obvious
When you come close to me
Let's make a scene
Like the movies in our dreams
Make me scream
Take me down, no one's watching
Close your eyes
Play it back and rewind
So surreal, as the story
Unfolds on the screen
Stop stalling
The credits are rolling
Hold me now
Before we run out of time

Let's rough it up
Till the end of the night
It's ah, ah, obvious
Right here's where the party starts
With you and me all alone

No one has to know
It's ah, ah, obvious to me
How it's gonna be
Ah, ah, obvious
When you come close to me
It's ah, ah, obvious
One kiss
It's easy to see
You and me
It's ah, ah, obvious
Right here's where the party starts
With you and me all alone
No one has to know
It's ah, ah, obvious to me
How it's gonna be
Ah, ah, obvious
When you come close to me
It's ah, ah, obvious
Right here's where the party starts
With you and me all alone
No one has to know
It's ah, ah, obvious to me
How it's gonna be
Ah, ah, obvious
When you come close to me
