Beneath a Burning Sky

Mendeed

Holocaust, in flames of fear burns fantasy
Liberty is just another masqueraded lie
Break the world, set it all ablazeWith an iron fist you lead the way
Conquering the lives of those
Who are on their kneesYou preach your words of wisdom
Heartfelt, a peaceful Saviour
You've sentenced us to death
Beneath a burning skyBurning skyAs you dictate
Your words encroached into our minds
A thousand virtues betrayedGuilty of waiting we bond together
Born to suffer, only those ill fated eyes
Liberate our mindsBehold the sign, you are killing us
Behold the signIn a world of hate with bodies soaked in blood
We are a living tragedy
Within this madness we must unite
Sever the chains of deceit
And rise against the new world's impunityHolocaust, in flames of fear
Liberty's a lie
Conquering the lives of those
Who are on their kneesYou preach your words of wisdom
Heartfelt, a peaceful Saviour
You've sentenced us to death
Beneath a burning sky, beneath a burning skyBurning sky
