## Wolf Alice

Long were the days where the window held the deepest of my thoughts  
It's okay, I found my place Found on the way  
To the place I never really thought I'd go  
It's okay, you were there in the back of my brain Did you really wanna ... with Alice?  
Did you really wanna ... with the Wolf?  
You can hate us all you want but  
It don't mean nothing at all  
You can join us if you think you're wild  
You can join us if you're a feral child  
Our love is cool I built the paths  
That I took in my head over and over again  
Step to step, to the light at the end  
Oh make believe,  
I was a prisoner to my thoughts throughout my teens  
Look at me, I don't read in between! Did you really wanna ... with Alice?  
Did you really wanna ... with the Wolf?  
You can hate us all you want but  
It don't mean nothing at all  
You can join us if you think you're wild  
You can join us if you're a feral child  
Our love is cool I will meet you where the grass is greener, oh  
Hands on the clock, no I ain't watching them either
