Denial Of Life

Cataract

In your dreams
The pain is so real
Before the dead
You'll have to kneel
Hear your future screams
See your epitaph
As you scream
The dead they laughPain, growing stronger
Life, exists no longer
Welcome, to a world of pain
Death and despairDenial of life (Vile denial)Created by your mind
To overtake your life
Sacrificial suicide
End it with a knife
Much too late
To change your mind
A bloody corpse
Is left behind
