

Does It Really Make a Difference

Galactic

Does it really make a difference if we don't see eye to eye
Does it really make a difference to build your castle in the sky
Does it really make a difference at all
Are we gonna let the big things take over the small
Does it make a difference at all
Does it make a difference at all
Does it really make a difference who's tears are first to flow
Does it really make a difference who's holding on, who's letting go
Does it really make a difference anymore
You know the hardest thing is to go it alone
Does it make a difference at all
Does it make a difference at all
Does it really make a difference anymore
What's there left to say in a broken home
Does it make a difference at all
Does it make a difference at all
Does it really make a difference if we don't see eye to eye
Does it really make a difference to build your castle in the sky
Does it really make a difference at all
Are we gonna let the big things take over the small
Does it make a difference at all
Does it make a difference at all
