Black Train Blues

Bukka White

My heart is filled with pain
I believe I'll take the train
My heart is filled with pain
I believe I'll take the trainThe one I love
She has another manYon' come the train
And I got no change
Yon' come the train
And I got no changeAll I can do
Just stand an wring my handsI don't feel ashamed
Standin' and wringin' my hands at the train
I don't feel ashamed
Standin' and wringin' my hands at the trainI ain't the first man
The train, left cold in handNow the same big black train
That put me in a strain
That the same big black train
That put me in a strainI ride the train
Keep the women from spendin' my changeI don't see nothin'
But hasten another train
I don't see nothin'
But hasten another trainThat the same black train
That left me in a strain
