

# Suffering

## Satchel

Listen to an angel sing  
Listen to the joy it brings  
Out underneath the clouds  
I would just shout out loud  
Why do i suffer so  
Why do i want to go  
And dont show me better skies  
Until you learn the meaning of trust  
Until you learn the meaning of life  
Until you learn to live of night and day  
You are never going to be alright  
So come on and take the stand  
And kick him til you think he understand  
Until you learn to live of night and day  
you are never going to be okay  
Until you learn the meaning of life  
you are never going to be allright  
I am so ?.....?

What do you know about me  
How can you possibly see  
Without walking in my shoes  
You will never taste enough of my blues  
So put on your old fur coat its 1973  
you will never know enough of us Yes  
Until you learn the meaning of trust  
Until you learn the meaning of life  
Until you learn to live of night and day  
You are never going to be alright  
Yes So come on and take the stand  
And kick him til you think he understand  
Until you learn to live of night and day yes  
Yes you are never going to be okay  
Until you know the meaning of life  
you are never going to be allright  
Thats no one take a hand  
My love  
Dont you understand

Yes Yeah

Until you learn the meaning of trust  
Until you learn the meaning of life  
Yes Until you learn to live of night and day  
Yes You are never going to be okay  
Yes and come on and take the hand  
Yes And kick him til you think he understand  
Yes and take another meaning of life  
Yes you never going to be allright  
Yes Until you learn to live of night and day  
Yes you never going to by okay  
Yes untill you learn tha meaning of life  
Life Life  
Yes and listen to the blues  
My ?.....? is ? .....?
