

# Leave

## Wavves

I would leave, I would leave  
If I could and I would  
I would leave, I would leave  
If I could and I would  
I would leave, I would leave  
If I could and I would  
I would leave, I would leave  
If I could and I would I'm running my teeth  
Through my face, it's a hell hole  
Stumble through the streets  
In my head it's a hell hole  
I would leave, I would leave  
If I could and I would  
I would leave, I would leave  
If I could and I would  
I would leave, I would leave  
If I could and I would  
I would leave, I would leave  
If I could and I would She's drunk and she's cheap  
In this place it's a hell hole  
A liar and a thief  
In this place it's a hell hole I would leave, I would leave  
If I could and I would  
I would leave, I would leave  
If I could and I would  
I would leave, I would leave  
If I could and I would  
I would leave, I would leave  
If I could and I would
