

Swanheart

Nightwish

All those beautiful people
I want to have them all
All those porcelain models
If only I could make them fall Be my heart a well of love
Flowing free so far above A wintry eve
Once upon a tale
An Ugly Duckling
Lost in a verse
Of a sparrow's carol
Dreaming the stars Be my heart a well of love
Flowing free so far above In my world
Love is for poets
Never the famous balcony scene
Just a dying faith
On a heaven's gate Crystal pond awaits the lorn
Tonight another morn for the lonely one is born
