Swanheart

Nightwish

All those beautiful people I want to have them all All those porcelain models If only I could make them fallBe my heart a well of love Flowing free so far aboveA wintry eve Once upon a tale An Ugly Duckling Lost in a verse Of a sparrow's carol Dreaming the starsBe my heart a well of love Flowing free so far aboveIn my world Love is for poets Never the famous balcony scene Just a dying faith On a heaven's gateCrystal pond awaits the lorn Tonight another morn for the lonely one is born
