Oblivion

Indians

I believe, when I see something
It can grow 'cause I see it in your eyes
Dip it off, still just tell me
'Cause it's all written in the starsI can see, even from a distance
It makes sense, want you to be mine
This will end, come, come closer
Let it go, let it through the windClose to you, I want for it
But it won't last the future to belong to us
Start it out, there's nothing
Soon to be the beauty of our stars
Start it out, there's nothing new
Soon to be the beauty of our starsI'm in love with you
A shout into the void
I know you'll hear me soon
And it will hear me moreClose to you, I want for it
But it won't last the future to belong to us
Start it out, there's nothing
Soon to be the beauty of our stars
Start it out, there's nothing
Soon to be the beauty of our stars
Start it out, there's nothing
Soon to be the beauty of our stars
