

# Poison Lovers

Steve Earle

I was almost outta here  
I nearly left this time  
I saw you in my rear view mirror  
And I pulled up on a dime But nothin' ventured, nothin' lost  
You can't say we didn't try  
That is unless you weigh the cost  
Of every tear we cried Why do we do this to each other  
I guess we were always poison lovers If you could look me in the eye  
And tell me what you see  
Maybe you can tell me why  
I let you torture me I know that your lips are soft  
And they sing the sweetest songs  
But I've been listenin' long enough  
My heart has turned to stone Why do we do this to each other  
Guess we were always poison lovers Another time, another place  
Another wind to blame  
Cover every track and trace  
I'll find you just the same And even if we made our peace  
And went our separate ways  
You'd go west and I'd go east  
And we'd meet here in this place Why do we do this to each other  
I guess we were always poison lovers  
Why do we do this to each other  
Guess we were always poison lovers
