

# El President

## Drugstore Fanatics

(I. Monteiro)

Yeah yeah ya...

Came from the skies

Burst through the gates

With no mercy or disguise

With their hearts set out in flames

I know; I've seen the masterplan...

Well I'm just a man (I am just a man)

I'm not giving in

All the people understand

'Cos they all fell down and prayed

I know; I've seen the masterplan:

"Kill the President"

They killed the President

They killed the President

Came from the skies (Came from the skies)

In all shades of green

We can always justify

We can measure up your dreams

I know; I've seen the masterplan:

"Kill the President"

They Killed the President

Yeah yeah ya...

Yeah yeah ya...

Yeah yeah ya...

They killed the President

They've killed the President

I'm just a man
