

Long Long Winter

Bob Marley & The Wailers

Long Long Winter:

It's gonna be a Long Long Winter for me

A Long Long Winter you'll see

That girl is gone from me

Left my heart in misery

And it's a Long Long Winter for me

Now that she's gone, gone, gone

Days and nights are ... and blue

Now that she's gone, gone, gone

The lonely memories linger here too

Said that girl is gone from me

Left my heart in misery

And it's a Long Long Winter for me (you'll see)

Is gonna be cold, cold and ... everyday

Lord I hope that I'm in right

Cause I can't stand this lonely night
