Good Businessman

Stealers Wheel

Got to get back to the telephone
Make some money from a complete unknown
I know everything that Ive got to say
I know cause Im a good businessmanI can make you rich, I can make you a name
Promise you the world if youll play my game
If you dont want to play it, dont bother me
Thats why Im a good businessmanA good businessman, a good businessman
A good businessman, a good businessmanIf I find that you aint got no trust in me
Then its time to use my psychology
I can change your mind, I can turn you around
I know cause Im a good businessmanLet me tell you now, I dont need your respect
Seems to me theres one thing that you forget
I aint in this business to be friends with you
Thats why Im a good businessmanA good businessman, a good businessman
A good businessman, a good businessmanGot to get back to the telephone
Make some money from a complete unknown
I know everything that Ive got to say
I know cause Im a good businessmanI can make you rich, I can make you a name
Promise you the world if youll play my game
If you dont want to play it, dont bother me
Thats why Im a good businessmanA good businessman, a good businessman
A good businessman, a good businessman
