

# Good Businessman

## Stealers Wheel

Got to get back to the telephone  
Make some money from a complete unknown  
I know everything that Ive got to say  
I know cause Im a good businessmanI can make you rich, I can make you a name  
Promise you the world if youll play my game  
If you dont want to play it, dont bother me  
Thats why Im a good businessmanA good businessman, a good businessman  
A good businessman, a good businessmanIf I find that you aint got no trust in me  
Then its time to use my psychology  
I can change your mind, I can turn you around  
I know cause Im a good businessmanLet me tell you now, I dont need your respect  
Seems to me theres one thing that you forget  
I aint in this business to be friends with you  
Thats why Im a good businessmanA good businessman, a good businessman  
A good businessman, a good businessmanGot to get back to the telephone  
Make some money from a complete unknown  
I know everything that Ive got to say  
I know cause Im a good businessmanI can make you rich, I can make you a name  
Promise you the world if youll play my game  
If you dont want to play it, dont bother me  
Thats why Im a good businessmanA good businessman, a good businessman  
A good businessman, a good businessman
