## Causeries

Intermediate  
but I've got soul  
and I row my boat ashore Under the magnifier I stall  
I get by in context but I don't play no part  
Under all the regional thunder  
we're equals and we're all looking for a new beginning Intermediate  
but I've got soul  
and I row my boat ashore Under the magnifier I stall  
A slow asphyxiation, a carving to the bone  
Under all seasonal longing  
we're equals and we're all trying to hold on to something
