Irresistible Force

Jane's Addiction

We didn't know that it would blow up
With such might
The stars are even brighter
Contrasted by the nightSent out shock waves
Filled up the outer space
Even the ghost came
To the late, late, late show
Watch us playEverything went tossing
Everyone was talking
Making up their faces
Wonder what we look like naked?Ah the irresistible force met the immovable object
Oh!
Ah the irresistible force met the immovable objectBanging and banging
And banging and banging
And banging
TogetherWe've become a big business
A galaxy merger
The two of us a big bang
God is a real man
God is a dad (x2)Ah! The irresistible force met the immovable object
Oh!
Ah! The irresistible force met the immovable objectBanging and banging
And banging and banging
And banging togetherAh! The irresistible force met the immovable object
Oh!Some may call me a lucky shot
No, but it was notBanging and banging
And banging and banging
And banging and banging
Banging and banging
And banging and banging
And banging together
