

# Do You Wanna Start a War

Fozzy

Do you wanna start a war?

Start a fire

Start a roar

Do you wanna take a stand?

Take control

Take command

Do you wanna start a war?

Start a fire

Start a roar

You can't take it anymore

Then it's time to start a warCos now is the time

For you to fall in line

For you to read the sign

For you to be divine

Cos now is the day

For you to get your way

For you to make your play

For you to jump and say HEY!Do you wanna start a war?

Start a fire

Start a roar

Do you wanna take a stand?

Take control

Take command

Do you wanna start a war?

Start a fire

Start a roar

You can't take it anymore

Then it's time to start a warCos now is the time

For you to fall in line

For you to read the sign

For you to be divine

Cos now is the day

For you to get your way

For you to make your play

For you to jump and say HEY!All day, it's been a bad day

A sad day

A stick it up your ass dayAll year, it's been a tough year

A rough year

A never get enough yearThrow your hands in the air

Now's the time to not care  
Throw your hands in the sky  
Say goodbye to bad timesCos now is the time  
    For you to fall in line  
    For you to read the sign  
    For you to be divine  
    Cos now is the day  
    For you to get your way  
    For you to make your play  
For you to jump and say HEY!Do you wanna start a war?  
    Start a fire  
    Start a roar  
Do you wanna take a stand?  
    Take control  
    Take command  
Do you wanna start a war?  
    Start a fire  
    Start a roar  
    You can't take it anymore  
Then it's time to start a warDo you wanna start a war?  
    Start a fire  
    Start a roar  
    You can't take it anymore  
Then it's time to start a war
