Free Me

Hyper Static Union

I was afraid to let You in
Would I break Your heart again?
So many times before
I could not keep my promises
But You were dying to forgive
You gave Your life for me to live
And now I know it's time to find out
Who I am in Your eyes, in Your eyesCome in my heart, come in my home
Come in, You're welcome at Your throne
Come in and take control
I know that I need You to rule my life(Chorus:)
Free me from within
I am ready for my new life to begin
Take me from this place
Oh Lord I seek Your face, I seek Your faceI've been a fool I've been wrong
I've been alone for too long
I've been thinking that it's time I apologize
You've given life, You've given love
You've given all I can think of
You've given me the time to find out
Who I am in Your eyes(Chorus)I'm falling in again
I don't remember when life was any better
I just need to be held, I'm feeling overwhelmed
'cause life is so much better
This life is so much betterFree me from within
I am ready for my new life to begin
Take me from this place
Oh Lord I seek Your face
I seek Your face
