[verse]
And though she front when I kiss her
I know that she love that,
And though that she hate when I leave,
but love when i come back,
cause she the homie ,my future wifey,
and thats that,
trade her for nothing man and thats facts,
Lets go,
somewhere we can go - on the low
your rocking with a CEO,
I aint even trippin'

but your so used to those lames,
when i told you i was different, (I)
I got i got what you need, (and I)
new diamonds they shine like 3D, (and i)

cool cruising with my baby down the 9-5,
dipping on the jakes and give her high five,
New givency's hop out the bentley we bout that,
Getting money is the only motive we count racks,
invest in bad work it get you bagged,
But now i back with a piece of pie in my bag,
