

Nine Lives

Edguy

Silence - It ain't the kill but the thrill of the chase
Same old story, same old song
Only the names have changed Fair warning - I could have read your mind in time
By the look in your eyes
Like diamonds turning to ashes
Ties frayed and I missed your signs Now I can't get over you
Cannot get under somebody else
I close my eyes Chorus: When all I see is you, you came to drain my love away
But it takes nine lives till it's over
All I see is you, you came to drain my life away
But I got nine, I got nine lives till it's over All my supplications gone unheard
Your head in my crotch has turned to a boot
But you won't hear a word Salvation - I ride into nowhere and out of nowhere I'll come
The twinges in your brain, the pang of regret
Don't mess with no son of a gun I'm gonna get over this
Gotta get under somebody else
I close my eyes Chorus: When all I see is you, you came to drain my love away
But it takes nine lives till it's over
All I see is you, you came to drain my life away
But I got nine, I got nine lives All I see is you, you came to drain my love away
But it takes nine lives till it's over
All I see is you, you came to drain my life away
I got nine lives till it's over
Till it's over I got nine lives, I got nine lives
